

Instructions to upgrade mCLASS pc sync software version 4.0.9 to current version 4.2.2

- Download from the following website the most current “Wireless Generation Software for Windows” sync software.
<http://it.dadeschools.net/dibels.htm> File is mCLASS-sync-pc-422.exe
- Double-click the downloaded file to start the installation. Select the “Public” option instead of “Personal” and select the defaults for all other options.
- Uncheck “Setup a handheld” then select “Finish”
- Then verify 4.2.2 is installed, START > ALL PROGRAMS > WIRELESS GENERATION > mCLASS Sync > About.txt
